

ComfoAir 350 ERV Unit with optional Pre-Heater

Brand: Zehnder

Product Code: 9246-01 or 9247-01 (left or right)

Weight: 73.00lb

Dimensions: 23.00in x 25.00in x 34.00in

Price: \$2,915.00

Short Description

The primary residential ventilation unit for average sized homes (~3-4 bedrooms and 3 baths), the CA 350 has a maximum capacity of 218 cfm.

Description

The primary residential ventilation unit for average sized homes (~3-4 bedrooms and 3 baths), the CA 350 has a maximum capacity of 218 cfm.

Certified by the Passive House Institute at 84% efficiency, the CA 350 is listed with HVI as 87% Sensible Recovery efficiency and 93% Apparent Sensible effectiveness (both at 50Pa) and features ECM motors for energy efficiency and ease of balancing, summer by-pass cooling, frost protection mode, and resistance pre-heater and enthalpy core. Additional options and accessories also available.

Benefits:

- Comfort ventilation up to 218 cfm without unpleasant drafts
- Heat recovery with an efficiency of 84%
- Moisture recovery with the Zehnder enthalpy exchanger
- Low power consumption thanks to DC motors
- Automatic summer bypass
- Frost protection function
- Quick, safe installation and servicing
- Simple, quiet operation with MERV 7/8 quality filters (MERV 13 optional)
- Integrated preheater and humidity control
- Can be coupled with geothermal heat exchanger
- Integrated controller for geothermal heat exchanger
- Filter replacement indicator

- Electrical and hydronic post-heater integration possible
Small minimum air volume as low as 29 cfm, specifically designed for single family houses
Digital Ease control unit
CO2 control (optional)
- Relative Humidity Control (optional)
- The CA 350 is a Certified Passive House Component.

Dimensions:Height: 33.9”

Width: 24.6”

Depth: 22.5”

Weight: 77.2 pounds (35kg)
